

FIGHT ON MEXICAN RESOLUTION; CATTLEMEN IN MEXICO ROBBED

J. D. Jackson Says American Cattlemen Operating in Mexico Not Allowed to Brand Own Calves; Governor Kendrick to Lead the Fight Against Adoption of Resolution Condemning Wilson's Policy.

(Continued from page 1.)

Secretary Bryan, who saw that his friend, Pancho Villa, needed the money. The plan was repeated, but after the resolution of Carranza was again ordered closed.

Cattle Stolen.
The American cattlemen have had a hard time in Mexico during the past three years, he declared. "They haven't been allowed to brand their own calves. They have seen their own cattle confiscated and rebranded. In many instances they have been forced to turn over their fat cattle without any reimbursement. Some of these cattle have been brought into the United States and others have been driven to the river and there slaughtered and the hides brought across. Since the duty has been removed from cattle Americans have spent enough money for Mexican meat to build a fleet of battleships."

Fight On Wilson.
A storm is threatened in the convention Wednesday or Thursday when the report of the resolutions committee, condemning the administration policy in Mexico, is introduced. The resolution committee, it is understood, will draft a strong resolution favoring action by the United States to protect the Americans, especially the cattlemen in Mexico.

This, it was understood Tuesday, would be bitterly fought by the "administration" crowd at the convention, led by governor J. B. Kendrick, of Wyoming, who is a strong Wilson man. The fight will take place on the floor of the convention and is expected to be the hottest of the week.

The 19th annual convention was

called to order for the first formal session at 10:30 Tuesday morning in the Texas Grand theater, by president Dwight E. Heard, of Phoenix, Ariz. There were 200 members present when the convention opened.

Mayor's Welcome.
Following the invocation of Rev. L. R. Milligan, the "cattlemen's preacher," of Allamore, mayor Tom Lea welcomed the livestock men.

"It is indeed a pleasure to greet you after the eloquent words of Rev. Mr. Milligan," said the mayor.

"El Paso greets you with a welcome that is deep and sincere. You have chosen for your convention a city that is part southern and part western. You cannot blame us for loving Texas. It is an imperial domain with a history that makes us love it. El Paso is a city of destiny. It was decreed 10,000 years ago that El Paso should be a city of destiny. We are working it out here in harmony in the rebuilding of the city and we work toward the idea of promoting hospitality. Therefore, we extend to you our heartiest welcome."

Nations Give Warm Welcome.

J. H. Nations, president of the Panhandle and Southwestern Cattle Growers' association, extended a welcome for his association.

"It is difficult to call you gentlemen; I want to call you boys; for you are all boys to me," he said. "Cattlemen have a place in the hearts of the southwest. You have been too busy to notice it, but we have been thinking of you just the same."

El Paso's Resources.

Mr. Nations spoke at some length

SANITARY BOARD MEETS TUESDAY

New Mexico Board Discusses Ticky Cattle With Committee.

Five members of the New Mexico livestock sanitary board met Tuesday morning in a committee room at the Sheldon hotel and discussed matters of interstate traffic in livestock which will later be threshed out in conference with the sanitary committee of the association. At 10 o'clock the committee went into a session with the national committee at the Pazo del Norte hotel. Those present at the conference were J. Isaacs, of Deming, N. M.; Harry Martin, of Grant county; Charles Ballard, of Roswell, N. M.; and W. H. Jack, of Folsom, N. M. The chief question which the sanitary board of New Mexico will take up with the national association is the matter of quarantines and the handling of ticky cattle.

Concerning the growth of the city and the territory which it serves. He showed that in 1915 of 1,200,000 pounds of copper produced in the United States nearly one half was produced in Arizona and New Mexico. The copper industry, he stated, was one of the great factors in the growth of El Paso. He also presented figures showing the growth of mining in New Mexico as reasons for the wonderful growth of the city.

Great Cattle Center.

"Next to the mining comes the cattle industry," Mr. Nations continued. "Last year 525,000 head of livestock were handled through El Paso yards, of which 23,000 were cattle. The movement could have been greater but for quarantine restrictions. El Paso is the center of the greatest natural grazing and breeding grounds in the United States and is destined to become a most important market."

President Dwight E. Heard then delivered his annual address to the convention, which appears elsewhere in the Herald today.

Jastra III.

Owing to indisposition of H. A. Jastra, of Bakersfield, Calif., who was

PROTECT LIVE STOCK INDUSTRY

Frank Hubbell Announces For U. S. Senate on Platform of Protection.

Albuquerque, N. M., Jan. 25.—Frank Hubbell has announced that he will make the race for the United States senate against Tom Catron in 1917. He has announced his candidacy in a local paper on a platform of tariff for protection of home industries, good roads, protection of the livestock industries, national preparedness and national drainage.

Mr. Hubbell is a millionaire sheepman of the Socorro county section and has been in politics on the Republican side and is considered a strong candidate. He will have the opposition of senator Catron, who has announced that he will run again.

H. H. Holt of Las Cruces is also understood to be a candidate, although he has not yet made an official announcement.

to have responded to the addresses of welcome, Henry W. Lynch, president of the California Livestock association, responded.

This is a magnificent empire of splendid meadows and forests, and I should ever leave California, it would be to come to the southwest," said Mr. Lynch.

Cattlemen Create Wealth.

"Mr. Nations has spoken of the great wealth in mining in El Paso's territory. I am more impressed with the incredible wealth above the ground. The mines are rich, but the wealth above the ground will endure forever. The ground will produce on and on, and the cattle industry will continue to grow."

The Big El Paso Heart.

Dr. J. M. Wilson, representative from the National Wool Growers' association, also responded. Mr. Nations presented some very wonderful figures of El Paso's activities and of the territory in which it is located. "I believe," he said, "that El Paso is the largest smelter in the world. There is something, however, larger than anything he mentioned, and that is the great big El Paso heart."

Much Hospitality.

"We have had evidence of it ever since we came here. Last night it was forcibly impressed upon us. I know not what you still have in store for us but, whatever it may be, I know it will come from a big heart."

Finish Cow and Cows.

"I am from Wyoming. In Wyoming we finish the things that come from Texas. We receive your range cattle and finish them for the market. Then we receive your rough cowboys, knock off some of the rough corners, and do a little polishing and then turn them

WORLDWIDE IS ON EXHIBITION

Wool From Everywhere is Shown at the Chamber of Commerce.

The big exhibit of foreign and domestic wool and wool products, which formed the chief attraction of the National Wool Growers' convention at Salt Lake, reached the city Monday night, and was installed in the auditorium of the chamber of commerce building this morning.

The exhibit, which is one of the most comprehensive exhibits of its kind in the world, is attracting much attention on the part of the wool growers who are attending the live stock convention and, because of its educational value, will attract many who have no other than a general interest in the growth and manufacture of wool into fabric.

A lecturer is in attendance to explain the exhibit and the matter of blending wools of the various grades for the production of fabrics of all kinds from the coarsest rug to the finest broadcloth.

men of affairs. When you want to elect a Texan to the president's chair we suggest that you come to Wyoming and help us elect governor J. H. Kendrick, our big brained, big hearted state executive."

Committees Meet.

The committee on sanitary boards met Monday afternoon in the Pazo del Norte to consider the work of the year and to make new recommendations to the convention. J. H. Nations, president of the Panhandle and Southwestern Cattle Growers' association, presided as chairman and a number of quarantine matters were discussed. This committee is composed largely of sanitary officers in the various states and is considered one of the important committees of the organization.

Marketing Committee.

Preliminary meetings of the marketing committee, the resolutions committee and the forest reserve and grazing land committees were held Monday afternoon and these committees will have daily meetings during the remainder of the convention, reporting to the officers and convention the results of their deliberations.

The marketing committee met Monday afternoon with a committee from the Cattle Raisers' association of Texas, which was headed by J. D. Jackson, the president. At this meeting marketing reforms were considered and a sub-

committee appointed to consider it further. The forest reserve and grazing land committee discussed plans for conservation of public lands which would be equally acceptable to the cattle and sheep men.

16th Infantry Band Plays Cow Tunes For Cattlemen

The 16th infantry band serenaded the officers of the American National Livestock association, from the El Paso street side of the hotel Pazo del Norte Tuesday morning.

A number of selections were played, after which the band proceeded to the Texas Grand theater where it participated in the opening session of the convention.

FIRST OF SOCIAL AFFAIRS FOR THE VISITING WOMEN

The first of the social features for the visiting women who are here during the cattlemen's convention will be given tonight at 8 o'clock on the mezzanine balcony of Hotel Pazo del Norte. An informal reception will be held from 8 to 9 o'clock and at 9 o'clock there will be a musical for the visitors in which Mrs. Robert Holliday, Mrs. A. H. Goldstein, Mrs. Walter D. Howe, Fredrick George Billings and James Graham McNary will sing, and Miss Virginia Bean will play violin solos and Leo Pourbaix cello solos. Mrs. James Graham McNary will accompany the singers. Mrs. V. L. Bean will accompany her daughter and Mrs. J. M. Richmond will accompany Mr. Pourbaix. Among the vocal selections will be several quartets composed and sung by Mrs. Holliday, Mrs. Goldstein, Mr. Billings and Mr. McNary. At the reception the members of the social committee of the Women's club and the officers of the club will act as hostesses for the chamber of commerce. On account of the limited space, the guests at the reception and musical will be only the visiting women and their hostesses and the wives of the El Paso cattlemen.

Wednesday night the cattlemen's hall will be given in the ball room of Hotel Pazo del Norte.

Thursday afternoon from 4 to 6 o'clock Mr. and Mrs. J. H. Nations will entertain the visitors with a reception at their home on Magoffin avenue.

Get from any druggist 2½ ounces of

Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you—at a cost of only 44 cents—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. Full directions with Pinex. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, rich in guaiac, which is so healing to the membranes.

To avoid disappointment, be sure and ask your druggist for "2½ ounces Pinex," and don't accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.
